*The deadline for the submission of interest is **24/11/2022***

Short Tile: *Jordan: Al-Balqa Applied University, partner of MED-QUAD project, is looking for technical staff specialized in conservation and management of Heritage Resources*

Body:

Al-Balqa Applied University (BAU) is implementing a thirty-month project funded by the EU under the ENI CBC MED Programme: MEditerranean QUadruple helix Approach to Digitalization "MED-QUAD" (B_A.2.1_0088_MED-QUAD). BAU is looking to recruit a technical staff specialized in water engineering, hourly based employment.

Qualifications:

1. Master's in conservation and management of Heritage Resources
2. Experience: A proven track record of experience working in similar assignments. Previous experience in international funded projects related to community service is preferred.
3. Fluency in English and Arabic are required.
4. Strong communication skills and a well-networking ability to facilitate the execution of this assignment.

Engineers that meet the requirements and can work in Irbid governate should submit an expression of interest which include the following:

- A cover letter including the suitability of the candidate to the required task.
- A curriculum vitae of expert/s with recent photo.

The project is 90% funded by the European Union (EU) under the ENI CBC Med Programme and has a budget of 3.3 million euros.

Interested applicants send to Prof. Rebhi A. Damseh at email: rdamseh@bau.edu.jo
