

الوصف التفصيلي Syllabus للمادة التعليمية

اسم المؤهل	ممارسة الرعاية الصحية + التقنيات الصحية
اسم المسار (التخصص)	جميع تخصصات المؤهلين المذكورين
اسم المادة التعليمية	المصطلحات الطبية Medical Terminology
رقم المادة التعليمية	L60400131
المتطلب السابق / المتزامن للمادة	لا يوجد
الساعات المعتمدة للمادة	1
الساعات النظرية (المحاضرات) للمادة	0
الساعات العملية / التطبيقية للمادة	1
طبيعة المادة العملية / التطبيقية	ندوة
طريقة التدريس	وجاهي

أولاً: الوصف المختصر للمادة

الأساس اللغوي اللازم لفهم واستخدام المصطلحات الطبية الشائعة في مختلف المجالات الصحية، التعريف بجذور الكلمات، وبناء ومعنى المصطلحات الطبية شائعة الاستخدام، بالإضافة إلى فهم هذه المصطلحات واستخدامها وتكييفها بشكل صحيح.

ثانياً: مخرجات التعلم للمادة

1. تعريف المكونات الأساسية للمصطلحات الطبية، مثل جذور الكلمات، البادئات، واللواحق.
2. تحليل المصطلحات الطبية إلى مكوناتها الأساسية لفهم معانيها.
3. بناء مصطلحات طبية جديدة باستخدام الجذور والبادئات واللواحق بطريقة صحيحة.
4. تفسير معاني المصطلحات الطبية الشائعة المستخدمة في مختلف التخصصات الصحية.
5. استخدام المصطلحات الطبية بشكل دقيق في السياقات الطبية المختلفة.
6. تكييف المصطلحات الطبية لتناسب الحالات والسياقات المتنوعة في الممارسة الصحية.
7. التعرف على القواعد النحوية واللغوية المتعلقة بالمصطلحات الطبية.

ثالثاً: محتوى الجزء العملي للمادة

الزمن المخصص ل لوحة بالساعات	محتوى الوحدة	اسم الوحدة
Week 1	1. Components of Medical Terms: ○ Word Root ○ Prefix ○ Suffix ○ Combining Form 2. Word-Building Rules: ○ Rule 1: Adding a combining form to a suffix. ○ Rule 2: Combining two word roots with a combining vowel. ○ Rule 3: Adding a prefix directly to a root word. 3. Practical Activities: ○ Analyze common medical terms and identify their components.	Unit 1: Introduction to Medical Terminology

	○ Create accurate medical terms using provided roots, prefixes, and suffixes. ○ Split medical words into individual components. ○ Build new medical terms using appropriate word-building rules.	
Week 2	1. Identify Roots/ Combining form of the digestive system 2. understand the meaning of medical words relating to the system 3. build medical words relating to the digestive system 4. associate medical terms with their anatomical position	Unit 2: The digestive system
Week 3	1. Identify Roots/ Combining form of the cardiovascular system 2. understand the meaning of medical words relating to the cardiovascular system 3. build medical words relating to the cardiovascular system 4. associate medical terms with their anatomical position	Unit 3: The cardiovascular system
Week 4	1. Identify Roots/ Combining form of the blood 2. Understand the meaning of medical words relating to the blood 3. build medical words relating to blood 4. associate medical terms with their anatomical position	Unit 4: The blood
Week 5	1. Identify Roots/ Combining form of the lymphatic system and immunology 2. understand the meaning of medical words relating to the lymphatic system and immunology 3. build medical words relating to the lymphatic system and immunology 4. associate medical terms with their anatomical position	Unit 5: The lymphatic system and immunology

Week 6	1. Identify Roots/ Combining form of the urinary system 2. understand the meaning of medical words relating to the urinary system 3. build medical words relating to the urinary system 4. associate medical terms with their anatomical position	Unit 6: The urinary system
Week 7	1. Identify Roots/ Combining form of the urinary system 2. understand the meaning of medical words relating to the urinary system 3. build medical words relating to the urinary system 4. associate medical terms with their anatomical position	Unit 7: The nervous system
Week 8	1. Identify Roots/ Combining form of eye 2. understand the meaning of medical words relating to eye 3. build medical words relating to eye 4. associate medical terms with their anatomical position	Unit 8: The eye
Week 9	1. The earIdentify Roots/ Combining form of Ear 2. understand the meaning of medical words relating to Ear 3. build medical words relating to Ear 4. associate medical terms with their anatomical position	Unit 9: The ear
Week 10	1. Identify Roots/ Combining form of skin 2. understand the meaning of medical words relating to skin 3. build medical words relating skin 4. associate medical terms with their anatomical position	Unit 10: The skin
Week 11	1. Identify Roots/ Combining form of the muscular system 2. understand the meaning of medical words relating to the muscular system 3. build medical words relating to the muscular system	Unit 11: The muscular system

	4. associate medical terms with their anatomical position	
Week 12	1. Identify Roots/ Combining form of the skeletal system 2. understand the meaning of medical words relating to the skeletal system 3. build medical words relating to the skeletal system 4. associate medical terms with their anatomical position	Unit 12: The skeletal system
Week 13	1. Identify Roots/ Combining form of the male reproductive system 2. understand the meaning of medical words relating to the male reproductive system 3. build medical words relating to the male reproductive system 4. associate medical terms with their anatomical position	Unit 13: The male reproductive system
Week 14	1. Identify Roots/ Combining form of the female reproductive system 2. understand the meaning of medical words relating to the female reproductive system 3. build medical words relating to the female reproductive system 4. associate medical terms with their anatomical position	Unit 14: The female reproductive system
