Al-Balqa Applied University

Newsletter

President's Message

Esteemed members of the Al-Balqa Applied University family,

My dear students,

It gives me great pleasure to meet you through this monthly newsletter, which presents a glimpse of the University's journey and its continuing achievements, and reflects the efforts of its academic and administrative family in realizing our vision and mission as a leading national university in applied education and community service.

Over the past period, Al-Balqa Applied University has pressed ahead with its programs and development plans aimed at elevating the educational process, modernizing its infrastructure, and strengthening its partnerships with national institutions, all of which contribute to a modern campus environment that meets our students' aspirations and keeps pace with the demands of the labor market.

In this context, we take pride in the honor bestowed upon the University by the Balqa Governorate branch of the Jordanian Construction Contractors Association, in recognition of what has been accomplished in developing the University's infrastructure, an acknowledgment that stands as an incentive to continue our path of work, achievement, and excellence.

Strengthening partnerships with community institutions likewise stands at the forefront of the University's priorities. To that end, a memorandum of understanding was signed between Al-Balqa Applied University and Zaha Cultural Center to support field training and enhance community partnership, opening wider opportunities for our students to gain the practical experience and skills that will enable them to excel in their professional lives.

As part of our continuous oversight of the educational process, we inspected the conduct of the theoretical examinations for the Associate Degree (Al-Shamel) for

Al-Balqa Applied University

President's Message

the 2026 summer session, underscoring the University's commitment to an examination environment marked by fairness, sound organization, and transparency, in a manner that ensures the application of the highest standards of quality.

We were also delighted by the opening, by Her Royal Highness Princess Alia bint Al Hussein, of the sports hall and classroom building at Princess Alia University College, an important addition to our educational and sporting infrastructure that enriches the campus environment and provides modern facilities in service of students and faculty alike.

The University was further honored by the laying of the foundation stone, by Her Royal Highness Princess Rahma bint El Hassan, for a development project at Princess Rahma University College, a new step within the University's ongoing efforts to develop its facilities and strengthen its capacity to deliver high-quality educational services.

In the field of digital transformation and keeping pace with technological advances, we take pride in the University's participation in launching the first cybersecurity and artificial intelligence unit at the municipal level in the Kingdom, reflecting our pioneering role in supporting innovation and harnessing modern technology in the service of institutions and the wider community.

The University also continues to broaden the horizons of cooperation with national institutions, and we have explored avenues of cooperation with the Jordan Media Institute in support of applied media education, widening our students' opportunities to acquire knowledge and hands-on experience in contemporary media fields.

These achievements are the fruit of the shared efforts of the Al-Balqa Applied University family and evidence of its enduring commitment to excellence, service, and the good of the nation and its people. We will continue to work in the spirit of a single team to achieve further development and accomplishment, and to consolidate the University's standing as a distinguished national institution in applied education.

May God protect Jordan, its leadership and its people, under His Majesty King Abdullah II Ibn Al-Hussein and His Royal Highness the Crown Prince, and may He grant us all success in the service of our beloved nation.

Professor Ahmad Fakhri Al-Ajlouni
President, Al-Balqa Applied University

Newsletter

Media Department's Message

The Media Department at Al-Balqa Applied University is pleased to present the monthly newsletter for July, documenting the most notable milestones, events, and achievements the University witnessed over the course of the month, as part of its mission to strengthen institutional communication and to showcase the record of service and excellence the University continues to build across a wide range of fields.

July was marked by a wealth of academic, administrative, and community activity, alongside high-impact initiatives, meetings, and agreements that reflected the University's commitment, under the leadership of the University President, Dr. Ahmad Fakhri Al-Ajlouni, to advancing its development journey, raising the quality of education, strengthening partnerships, consolidating its role in serving the community, and delivering on its strategic objectives.

This newsletter is more than a record of events. It is a window onto the efforts and accomplishments of the University family, and an affirmation of the role of university media in conveying a true picture of institutional work and in building bridges of communication with the local community, our partners, and institutions across every sector.

In closing, the Department of Media extends its thanks and appreciation to all faculties, deanships, and administrative units that contributed to the success of this month's activities and reaffirms its commitment to sharing everything that serves our readers and reflects the distinguished standing of Al-Balqa Applied University.

HRH Princess Alia bint Al Hussein Opens the Sports Hall and Classroom Building at Princess Alia University College

HRH Princess Alia bint Al Hussein visited Princess Alia University College, where she was received by President Dr. Ahmad Fakhri Al-Ajlouni, the Vice Presidents, College Dean Dr. Tariq Abu Hazim, and heads of academic departments. Her Highness opened the College's sports hall, refurbished at a cost of JD 280,000, and heard a briefing from the President on the project and its implementation phases. Dr. Al-Ajlouni affirmed that the visit represents important support for the University's efforts to develop its educational system and enhance the campus environment in service of students and their academic journey.

HRH Princess Rahma Lays the Foundation Stone for a Development Project at Princess Rahma University College

HRH Princess Rahma bint El Hassan visited Al-Balqa Applied University on Wednesday to review the programs of Princess Rahma University College, where she was received by President Dr. Ahmad Fakhri Al-Ajlouni, the Vice Presidents, Balqa Governor Dr. Faisal Al-Masaeid, College Dean Dr. Munther Al-Sweilmeen, and members of the Senate and House of Representatives. Her Highness reviewed the project to develop the College's lecture hall and science laboratory building, which aims to provide a modern learning environment with advanced classrooms, laboratories, and academic and service facilities. Dr. Al-Ajlouni affirmed that the visit embodies Her Highness's continued support for higher education in Jordan.

BAU and the Jordan Media Institute Explore Cooperation in Applied Media Education

President Dr. Ahmad Fakhri Al-Ajlouni received the Dean of the Jordan Media Institute, Dr. Ziad Al-Rifai, accompanied by the Institute's Director of Admission and Registration, Mr. Younes Kafraeeni, to discuss academic and training cooperation between the two sides. The meeting came as part of preparations for the launch of the Faculty of Media at Al-Balqa Applied University, with both sides exploring opportunities to develop academic and training programs, exchange expertise, and build partnerships that prepare students in line with the latest professional practices.

BAU President Takes Part in Launching the Kingdom's First Municipal Cybersecurity and AI Unit

President Dr. Ahmad Fakhri Al-Ajlouni took part in the ceremony launching the Cybersecurity and Artificial Intelligence Unit at Greater Salt Municipality, the first of its kind at the municipal level in the Kingdom, under the patronage of Balqa Governor Faisal Al-Masaeid, and attended by Vice President for Centers and Local Community Service Affairs Dr. Khaled Al-Zoubi, Assistant to the President Dr. Ashraf Al-Wraikat, and members of the Greater Salt Municipality committee. He affirmed that the unit embodies the strategic partnership between the University and the municipality in keeping pace with an AI-led technological revolution that calls for stronger human capacity, robust cybersecurity, data protection, and the safe, responsible use of technology.

BAU and Zaha Cultural Center Sign an MoU to Strengthen Field Training and Community Partnership

Al-Balqa Applied University and Zaha Cultural Center signed a memorandum of understanding and cooperation aimed at strengthening the institutional partnership between the two sides and expanding areas of cooperation in field training, psychological and social counseling, and community service, in a manner that contributes to empowering students, developing their skills, and enhancing the role of both institutions in serving the community.

The memorandum seeks to promote the exchange of expertise and information for mutual benefit, launch joint campaigns and programs, and offer a national model for cooperation between institutions, alongside cooperation in psychological and social counseling, the organization of extracurricular activities for students — particularly international students — and the implementation of joint initiatives and projects that serve the objectives of both parties.

Contractors Association Honors Al-Ajlouni for Advancing the University's Infrastructure

President Dr. Ahmad Fakhri Al-Ajlouni received an honor from Eng. Munir Al-Nsour, Head of the Balqa Governorate branch of the Jordanian Construction Contractors Association, in the presence of association and branch board members, in recognition of his leadership of the University's development and construction drive, particularly in building projects and infrastructure. Al-Nsour noted that the facilities completed during his presidency have been a qualitative addition to the campus, while Dr. Al-Ajlouni credited the achievements to the collective efforts of University staff and its partner institutions.

Al-Ajlouni Inspects the Theoretical “Al-Shamel” Examinations for the 2026 Summer Session

President Dr. Ahmad Fakhri Al-Ajlouni, Chair of the Higher Examinations Committee, toured the computerized theoretical examinations of the 2026 summer session, the final session of the Associate Degree Examination (“Al-Shamel”), reviewing the readiness of the seven examination centers spread across the Kingdom’s governorates and the organizational and technical measures adopted to ensure a smooth process. He stressed the importance of providing a suitable examination environment and adhering to the governing regulations in a way that achieves fairness and transparency, noting that the University has committed its technical and human resources to supporting students throughout.

Al-Ajlouni Honors Women's Sports Teams for Their Achievements in the Jordanian University Championships

President Dr. Ahmad Fakhri Al-Ajlouni honored the students of the University's women's futsal and taekwondo teams in recognition of their first-place finishes in the Jordanian university championships for the second semester of 2025/2026, organized by the Jordanian Universities Sports Federation. He praised the distinguished performance the students delivered in the competitions, describing their achievements as a source of pride that reflects the energy and talent of BAU students, and affirmed the University's continued support for its creative and gifted students.

Dean of Student Affairs Takes Part in the "Jeel" Forum on Strengthening Students' Political Participation

Dean of Student Affairs Dr. Khalaf Khatatneh took part in the forum "Jeel: Student Movements and Party Work in Jordanian Universities," organized by the Politics and Society Institute in partnership with the Netherlands Embassy in Amman as part of the "Jeel Al-Tahdeeth" (Modernization Generation) project, where he met the University's participating students. President Dr. Ahmad Fakhri Al-Ajlouni said the University's participation stems from its belief in the role of universities in preparing aware youth leaders capable of contributing to national modernization, and from its commitment to a campus environment that supports constructive dialogue, responsible political participation, and respect for pluralism.

Students of Prince Abdullah bin Ghazi Faculty Take Second Place at the Thirteenth National Technology Parade 2026

Students of Prince Abdullah bin Ghazi Faculty of Communication and Information Technology won second place in the public safety and quality of life track at the Thirteenth National Technology Parade 2026, hosted by Al-Ahliyya Amman University under the slogan "Smart Solutions for a Better Future" with broad participation from Jordanian universities. President Dr. Ahmad Fakhri Al-Ajlouni said the achievement reflects the academic and practical excellence of BAU students and the University's success in providing a learning environment that stimulates creativity and innovation.

BAU Ranks Second Nationally and Fourth Across the Arab World in Academic Training for Arab University Students

Al-Balqa Applied University has added a new achievement to its record of excellence, securing second place among Jordanian universities and fourth place among Arab universities in the field of academic training for Arab university students, within the programs of the Arab Council for Student Training and Creativity.

The University was honored during a ceremony held by the Arab Council, at which Dr. Aziz Al-Rahamneh, Dean of Salt College for Educational Sciences and Humanities and member of the Executive Committee of the Arab Council for Student Training and Creativity, received the shield of honor on behalf of Al-Balqa Applied University, in recognition of its efforts in ensuring the success of academic training programs for Arab university students and strengthening its presence in Arab academic cooperation programs.

BAU Receives the National Technology Parade Banner and Prepares to Host the Fourteenth Edition in 2027

Al-Balqa Applied University received the banner of the National Technology Parade (NTP), marking its hosting of the fourteenth edition of the festival during 2027. The handover took place at the closing ceremony of the thirteenth edition, hosted by Al-Ahliyya Amman University with broad participation from Jordanian universities, higher education institutions, and national bodies supporting the technology and innovation sector.

The University was represented at the ceremony by Vice President for Centers and Community Service Affairs, Dr. Khaled Nasser Al-Zoubi, who received the festival banner, confirming the transfer of the hosting of this national event to Al-Balqa Applied University for its coming edition.

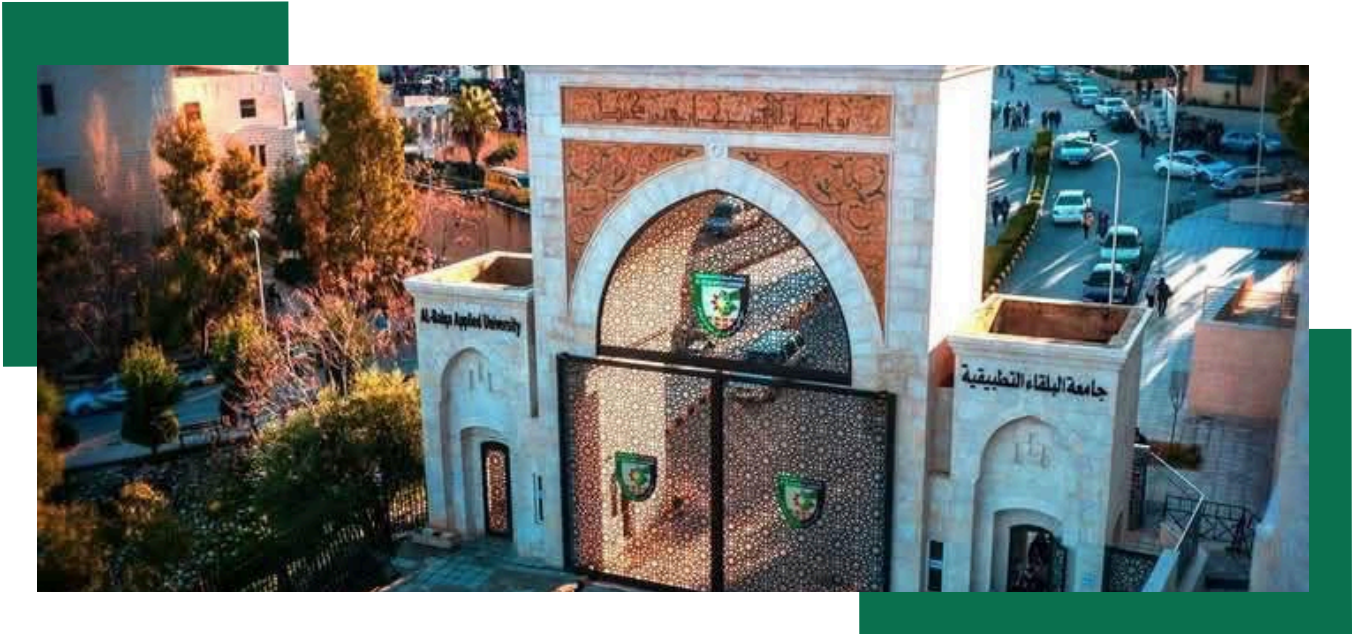

University President Dr. Ahmad Fakhri Al-Ajlouni affirmed that hosting the festival is consistent with the University's vision of consolidating its leadership in technical and applied education and strengthening the ecosystem of innovation, creativity, and entrepreneurship. He noted that the University attaches great importance to employing artificial intelligence technologies and digital transformation in developing the educational and research process, in a manner that keeps pace with global developments and equips students with the skills of the future.

BAU Advances Digital Transformation by Creating an “Assistant Dean for Technology and Artificial Intelligence” in Every Faculty

In a step that reflects the accelerating shift of higher education institutions toward adopting future technologies and advancing digital transformation, Al-Balqa Applied University announced — following the approval of the Deans' Council — the creation of a new academic position titled “Assistant Dean for Technology and Artificial Intelligence,” as part of a strategic vision that seeks to make artificial intelligence a cornerstone of the development of academic and administrative work within the University, across all of its faculties.

University President Dr. Ahmad Fakhri Al-Ajlouni affirmed that this step represents a qualitative leap along the path of digital transformation, noting that the University is moving ahead with embedding artificial intelligence institutionally and comprehensively across all faculties by enabling assistant deans in the various faculties to lead digital transformation efforts and applications, in a way that ensures the integration of academic and administrative work and raises its efficiency.

BAU Strengthens Its Regional and International Presence as Dr. Heba Al-Kharabsheh Is Elected to the IUCN Regional Committee for West Asia

Dr. Heba Al-Kharabsheh, Director of the International Center for Water, Environment, and Energy Research at Al-Balqa Applied University, won membership of the Regional Committee for West Asia of the International Union for Conservation of Nature (IUCN), one of the Union's principal committees, which is responsible for coordinating cooperation among member institutions, identifying environmental priorities, supporting regional policies and initiatives, and strengthening partnerships and the exchange of expertise in the fields of nature protection, biodiversity conservation, and sustainable development.

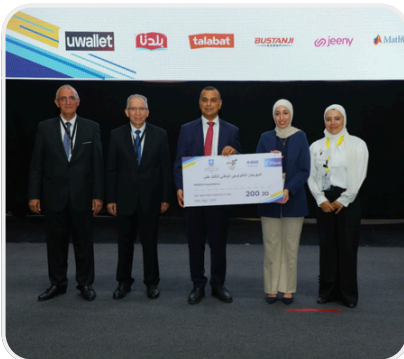

BAU Concludes the “Career Up” Career Guidance Program

The Deanship of Student Affairs at Al-Balqa Applied University, in cooperation with the Business Development Center (BDC), concluded the activities of the “Career Up” career guidance program, which was delivered to prepare graduates and strengthen their readiness to enter the job market.

The program comprised a series of specialized training workshops focused on developing self-awareness, defining career paths, exploring employment opportunities, building professional skills, preparing a professional résumé, and refining job interview skills, alongside a “Legal Day” that helped raise participants' awareness of their legal rights and duties in the workplace.

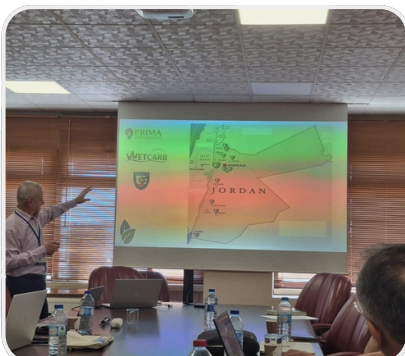

BAU Engineering Students Take Second Place at the Thirteenth National Technology Parade

A project by students Dima Al-Hayari and Dina Al-Dabash of the Computer Engineering program at the Faculty of Engineering, Al-Balqa Applied University, achieved distinction by winning second place in the financial technology track at the Thirteenth National Technology Parade, hosted by Al-Ahliyya Amman University.

The award-winning project, titled “An Intelligent System for Detecting Money Laundering Operations Using Digital Currency (Bitcoin),” aims to employ artificial intelligence techniques to detect suspicious financial activity associated with digital currencies, thereby strengthening the security of digital financial transactions.

BAU Takes Part in the Kick-Off Meeting of the WETCARB Project, Funded by PRIMA to Advance Carbon Capture Research and Sustainable Wetland Management

Al-Balqa Applied University took part in the kick-off meeting of the WETCARB project, which is dedicated to developing wetland ecosystem tools for carbon accounting and is funded under PRIMA, the Partnership for Research and Innovation in the Mediterranean Area.

The project was officially launched during the kick-off meeting held in Istanbul, Türkiye, with the participation of a multidisciplinary research consortium comprising academic and research institutions from Jordan, Türkiye, Greece, Italy, Egypt, and Tunisia. WETCARB is an international research initiative that aims to develop and refine methods for assessing and measuring carbon capture and maximizing its value in agricultural wetland ecosystems across the Mediterranean region. The project also addresses the environmental challenges associated with climate change by developing innovative methodologies for monitoring greenhouse gas emissions, carbon accounting, and applying regenerative agricultural practices that contribute to strengthening the resilience and sustainability of ecosystems.

BAU Ambassadors Around the World: Aya Al-Husseini – An Academic Exchange Journey That Shaped a More Independent and Open-Minded Student

As part of Al-Balqa Applied University's commitment to strengthening academic and student openness and the exchange of international expertise, and to regarding its students as “BAU Ambassadors Around the World” — an initiative of the Unit of Cooperation and International Relations that highlights the success stories of University students in international academic exchange programs and shares their inspiring experiences to encourage more students to make the most of international opportunities — we turn the spotlight on the experience of student Aya Al-Husseini.

Al-Husseini took part in the Erasmus+ program at the Bucharest University of Economic Studies (ASE), where she spent the 2025/2026 academic year at the Romanian university, marking a significant milestone in her academic and personal journey. She also joined activities organized by the Erasmus Student Network (ESN), which included artistic, athletic, and social events that helped her build friendships with students from countries around the world.

BAU Concludes the “Art of Accessories” Course

The Development and Local Community Service Unit at Al-Balqa Applied University concluded the “Art of Accessories” course, organized by the Department of Social Activities for the Colleges. The course targeted girls between the ages of 12 and 17 from among the children of University staff and the local community, as part of the University's commitment to developing the creative and life skills of young people and making productive use of their free time in ways that refine their talents and build their capabilities.

The closing ceremony featured an exhibition of the participants' work, in which they presented a collection of innovative designs completed throughout the training period — pieces that reflected creativity, precision, and distinction, and embodied the artistic skills they had acquired during the course.

BAU Concludes the Training of Trainers (TOT) Course for Faculty Members

The National Center for Training and Trainer Qualification at Al-Balqa Applied University concluded the specialized “Training of Trainers (TOT)” course, which targeted faculty members with the aim of developing their training and academic skills and strengthening their competencies in line with the latest practices in the field of training and education.

The course was delivered in line with the directions of the University President, Dr. Ahmad Fakhri Al-Ajlouni, who attaches great importance to developing the professional and training competencies of both teaching and administrative staff and to enhancing the quality of training programs, in a manner that contributes to raising institutional performance and the quality of educational and training outcomes.

The Center for Comprehensive Measurement and Diagnosis of Disabilities Holds Its First Session and Approves Its Development Plans

The Center for Comprehensive Measurement and Diagnosis of Disabilities at Al-Balqa Applied University held its first session, chaired by Dr. Shadi Al-Hamouri, Vice President for Medical Faculties Affairs and Dean of the Faculty of Medicine, and attended by council members representing the University along with a number of national institutions and relevant bodies.

The council reviewed the Center's most notable accomplishments since its establishment, together with the results and performance indicators it has achieved in the area of comprehensive measurement and diagnosis services, alongside the efforts made to develop the work environment and raise the efficiency of services in keeping with best professional practices and approved standards.

Career Development Center for the Northern Region Colleges Holds a Training Workshop on Effective Communication Skills

In line with Al-Balqa Applied University's vision of preparing and qualifying its students both academically and professionally, and following the directions of University President Dr. Ahmad Fakhri Al-Ajlouni aimed at empowering young people, strengthening their capabilities, and preparing them for the job market, and with the support and follow-up of Vice President for Centers and Local Community Service Affairs Dr. Khaled Nasser Al-Zoubi, the Career Development Center for the Northern Region Colleges organized a training workshop entitled "Effective Communication Skills."

The workshop was delivered by trainer Khalil Mahmoud Azabi, who covered a range of essential skills in effective communication and interaction, approaches to building professional relationships, and positive engagement in the workplace, alongside practical exercises designed to develop students' skills and strengthen their self-confidence.

Awareness Lecture on Cybercrime and Its Legal Consequences

The Community Peace Club at the Deanship of Student Affairs organized an awareness lecture entitled "Cybercrime and Its Legal Consequences," delivered by attorney Dr. Younes Arab in the presence of Dean of Student Affairs Dr. Khalaf Khatatneh, members of the teaching and administrative staff, and a large gathering of students. The lecture drew lively engagement through discussions of real-world cases, with the speaker answering students' questions and offering guidance to raise legal awareness and encourage responsible use of modern technology.

Faculty of Technological Agriculture Holds a Scientific Day on Smart Organic Farming

The Faculty of Technological Agriculture, in cooperation with the Jordanian Organic Farming Association, held a scientific day entitled "Empowering Student Innovation in Smart Organic Agriculture Toward Sustainable Partnerships with the Private Sector," under the patronage of Vice President for Academic Affairs and Technical Education Dr. Zaid Al-Anbar, representing the University President, and with the attendance of Dean Dr. Mohammad Al-Alawi. Two scientific sessions addressed smart agriculture applications, the Internet of Things, spectral analysis, biological control, and smart crop management, alongside a showcase of innovative student and research projects in sustainable agriculture, alternative resources, clean energy, and biotechnology.
